PETER MUSILA CV

Embu, Kenya | Tel: +254 719443774| Email: peterkiilu420@gmail.com Linkedin: linkedin.com/in/peter-musila-b38597215 | GitHub:https//:github.com/peter-kiilu

---

Professional Summary

Innovative **Full Stack Developer (MERN & Python)** with a strong foundation in **React, Node.js, Express, MongoDB, and JavaScript**. Passionate about building scalable web solutions, optimizing performance, and leveraging AI, ML technologies. Proven leadership as the **Responsible Computing Young Innovators Club Leader** and an active contributor to Google Developer Groups on Campus communities. Adept at managing events, fostering collaboration, and inspiring innovation within tech ecosystems.

Core Technical Skills

Frontend: React.js, TailwindCSS, HTML5, CSS3, TypeScript
Backend: Node.js, Express.js, Nextjs(Full-stack), Flask (Python), RESTful APIs
Database: MongoDB, MySQL, SQLAlchemy
Languages: JavaScript (ES6+), Python
Tools & Platforms: Git, GitHub, Postman, VS Code, Vite, Firebase
Other Interests: AI/ML, Cybersecurity, Cloud Computing

Leadership & Community Involvement

Leader – Responsible Computing Young Innovators Club

University of Embu | 2023 – Present

- Spearheaded community-driven innovation in **ethical AI and responsible computing**.
- Mentored student developers in building socially responsible tech solutions.
- Coordinated training sessions and innovation challenges, improving student engagement by **60%**.

Member – Google Developer Groups (GDG) on Campus

University of Embu | 2022 – Present

- **Co-organized** major campus tech events**, including:**
    - **THiNK Botathon** – AI and NLP Hackathon promoting ML adoption among students.
    - **ICP Hubs Kenya** – Blockchain education and development event.

- **Moringa School Cybersecurity Bootcamp** – Strengthening student cybersecurity awareness.
- **Martial School of IT AI Seminar** – Showcased AI trends and research insights.

  Supported technical logistics, speaker coordination, and student training.

University Representative – Tech Conferences & Exhibitions

University of Embu | 2022 – 2024

- Represented the university at **national and regional innovation events**, pitching student-built projects and emerging tech initiatives.
- Built partnerships with tech institutions and startups for collaborative innovation.

Projects

1. AI Courtroom Assistant (Ongoing)

- Built using **React + Flask**, integrating **Natural Language Processing** to assist in legal case brief analysis.
- Features include smart document search, AI-driven recommendations, and speech-to-text integration.

2. AI-Powered Smart Resume Generator

- Built an intelligent web application that automatically generates optimized, job-specific resumes using AI.
- Implemented resume parsing, skills matching, and keyword enhancement for improved ATS (Applicant Tracking System) ranking.
- Developed using **React**, **Flask**, and **OpenAI API** for smart content generation and dynamic PDF export.

3. MuseSync (Aura) – AI-Powered Design System

- Developed **Aura**, an AI-driven platform where designers and creators generate design mockups instantly via text prompts.
- Integrated **Stable Diffusion** for image generation, along with a **design browsing**, **favorites**, and **color inspiration** system.
- Built with **React** and **Flask**, featuring a clean, intuitive UI and modular architecture for scalability.
- Designed comprehensive documentation to guide **users, collaborators, and developers** through platform functionality and maintenance.

Education

Bachelor of Science in Information Technology
University of Embu, Kenya | Expected Graduation: Sept 2026

- Coursework: Software Engineering, Artificial Intelligence, Data Structures, Database Systems, Web Development, Cybersecurity
- Honors: Innovation Leadership Recognition – 2024

Achievements

- **Innovation Leadership Award** – University of Embu, 2024
- **Organizer Recognition** – THiNK Botathon ML/NLP Hackathon, 2023
- **Participant** – ICP Blockchain Hackathon Kenya, 2023

Soft Skills

Leadership • Team Collaboration • Problem Solving • Critical Thinking • Public Speaking • Project Management

---

Languages

- English – Fluent
- Swahili – Native
